

Solution family: Exterior Door Solution
Solution group: Single-Steel/Aluminium-Self Closing-Panic Device-Escape Route

Description

This ASSA ABLOY Sicherheitstechnik Security Door Solution is also secured by a High Security Multipoint Lock in combination with the Escape Route Technology. The door can be released at any time using the emergency button, which also triggers an acoustical and optical alarm.

Authorised access in the direction of escape is gained using a key in the key switch integrated into the escape door control terminal. The key switch can also be used to set the door to permanent release, to re-lock and to deactivate the alarm.

Typical applications:

Education, School, University, Hotel, Hospital, Stadium, Multi Arena, Museum, Gallery, Shopping Mall, Bank, Industry, Office, Commercial, Congress, Multi-Residential, Health Care
